

Caulk Gun Instructions

The FormFill Caulk Gun has been designed to fit most 5.5oz. and 4oz. squeeze tubes. It can be used with any product supplied in a squeeze tube. The FormFill Caulk Gun's innovative design allows you to easily apply any squeeze tube product in previously difficult areas. The Caulk Gun also allows you to easily dispense all material in a tube avoiding waste. The gun has an adjustable tube grip at the back of the gun which slides along the plate to accommodate different tube lengths.

The FormFill Caulk Gun is manufactured using a hard durable glass filled nylon which is impervious to chemicals and will withstand harsh everyday use by professionals.
